PROFESSIONAL PROFILE

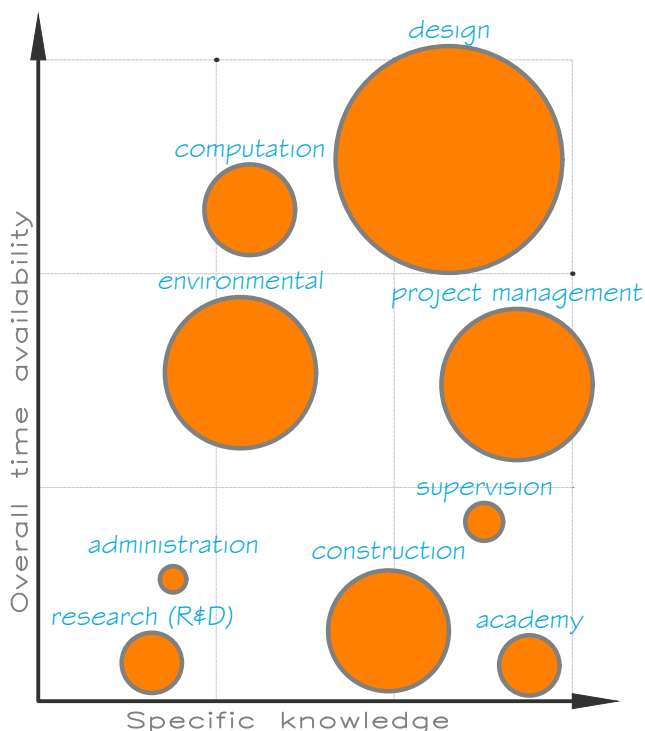

I am a professional in civil engineering dedicated to manage, design and develop projects related to civil engineering. Broad knowledge in problems analysis & integrated design of total solutions for project management, as well as in structural engineering, hydraulics, geotechnics and software engineering.

Strengths in many technical aspects, as much as commercial skills. Multiple abilities for design & documentation in both physical or virtual media.

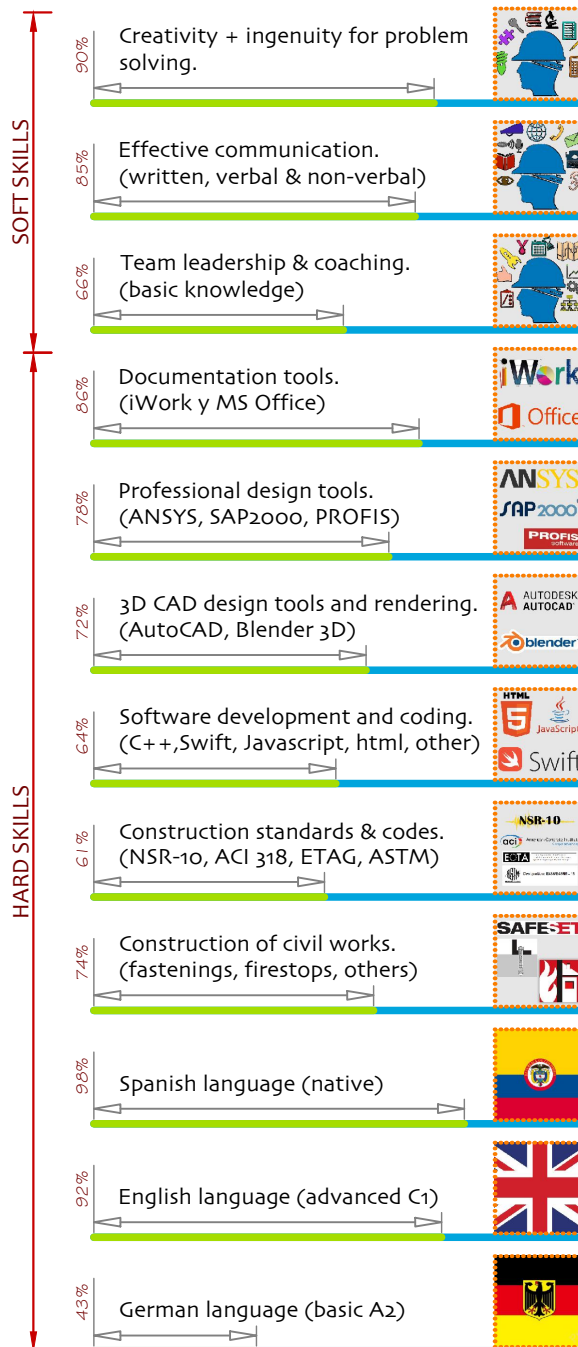

High performance communication in Spanish, English & German. Wide working experience which promotes continuous learning & team-work.

Educated with discipline, high values, ethical principles and critical abilities to focus efforts and resources into results & accomplishments.
